ALGEBRA 1 · STATISTICS

Mean

The average: the sum of the values divided by how many values there are.

EXAMPLE

4, 6, 6, 9, 10

sum 35 ÷ 5

mean = 7

✂ cut

ALGEBRA 1 · STATISTICS

Median

The middle value of ordered data (average the two middle values if needed).

EXAMPLE

3, 5, 8, 12, 14, 20

(8 + 12) ÷ 2

median = 10
