GRADE 7 MATH · HOMEWORK

# Draw a Quadrilateral with Given Conditions

SCORE / 25

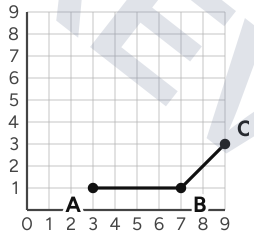

## 01 Part A · Practice

Draw with the given sides and angles, then name the figure by its properties.

**1** ●○○ Draw a quadrilateral with sides 3, 6, 3, 6 cm, two pairs of parallel sides, and a 105° angle. Give its most specific name.

**2** ●○○ You draw a rhombus with one angle of 125°. What are the measures of the other three angles?

**3** ●○○ Plot point $D$ so that $ABCD$ is a parallelogram. What are the coordinates of $D$?

**4** ●○○ A quadrilateral has angles of 56°, 71°, and 91°. What is the fourth angle?
